submission(at)iymc.info

Version: June 2018

Teachers and schools are invited to share this opportunity with their students and to make talented students in particular benefit from IYMC. This competition is a great way to sharpen the mind of your students, to give them motivation and to challenge them with creative math problems. The problems can be used as homework or project work as well: The competition includes various topics that range from geometry to number theory.

Furthermore, teachers and schools may use the IYMC challenge for after-school classes or workshops. The problems will inspire students to get engaged with mathematics and will provide a unique opportunity for talented students to challenge their math skills.

We understand the crucial role of teachers and schools for mathematical education. Because of that, we award three school awards to honor the efforts of the teachers and the school (the awards are not connected to cash prize):

- **IYMC School Award for Most Participants:** This award receives the school with the most overall participants of the qualification round to honor the efforts of the teachers for encouraging students to participate in mathematical competitions.
- **IYMC School Award for Most Finalists:** This special award receives the school with the most students participating in the pre-final and final round.
- **IYMC School Award for Excellence:** This award receives the school with many outstanding students that have achieved high results throughout the overall competition to honor the quality education. The organizers decide which school receives the award.

If you are interested in implementing an IYMC group in your school or using the IYMC problems for your curriculum or as project work, do not hesitate to get in touch. You can also find additional materials, flyers, and posters on our official website.
